

ELM FARM RESEARCH CENTRE

Berkshire, UK.

Short-Term and/or Part-Time Contract Researchers.

Elm Farm Research Centre is looking to recruit contract and part-time researchers to undertake short-term research work in the areas of sustainable food & farming (including livestock & environment), food quality & nutrition and energy.

Candidates must be able to demonstrate an in-depth knowledge of their chosen area of interest and would ideally be educated to PhD in an appropriate discipline, or have equivalent experience to this level. The ability to successfully follow a brief, to work independently and to produce extensively researched and referenced reports to time and budget are essential skills for these positions. A track record of publications in their given areas of expertise including refereed papers is also essential. To demonstrate experience of grey and popular publications would also be of benefit.

We would envisage these posts to be part-time fixed length contracts or freelance/contract positions. Time commitment to the roles can be flexible as can location, although regular attendance at our head office in Berkshire would be needed.

For further information on EFRC see our Web site at www.efrc.com. If you are interested in taking this opportunity further please send a CV and covering letter outlining your area of expertise, skills and suitability for such a position as well as your financial expectations and quoting reference number P601 to Dr Bruce Pearce, Elm Farm Research Centre, Hamstead Marshall, Nr Newbury, RG20 0HR. or bruce.p@efrc.com.
