Come and join us to celebrate and remember Roger.

Wear whatever you feel comfortable in; colour and laughter most welcome.

Please don't spend money on flowers, but if you feel you would like to do something, donate to a worthy cause of your choosing.

You can keep Rogers legacy alive by supporting causes close to his heart. Areas such as organic practices, food security, soil, environment, pollinators and more.

We would love to remember him with you in person and understand it may be a busy time of year.

For those of you who are unable to attend, you can join us for the crematorium service online.
